ABOUT THE EVENT

AI VISION WORLD FORUM LONDON 2026

AI Vision World Forum London 2026 is a groundbreaking global summit designed to shape the future of artificial intelligence across industries, governments, and societies. Bringing together world-leading researchers, policymakers, tech innovators, corporations, and emerging startups, the forum serves as a strategic platform for driving high-level dialogue, collaboration, and AI-powered transformation.

The event will explore the impact of artificial intelligence on critical sectors—including defence, healthcare, robotics, cybersecurity, finance, smart cities, and education—while highlighting cutting-edge research, real-world applications, and global best practices.

AI Vision Institute & University, together with London Valley Technology Park, will officially unveil their global initiatives during the forum, introducing pioneering programs such as the world's first Artificial Intelligence Accreditation Standards, setting new benchmarks for ethics, safety, and governance in AI.

With participation from government officials, international organisations, business leaders, investors, academics, and media representatives, the forum offers an unparalleled opportunity for networking, partnership development, and shaping the global AI agenda.
